

Communications Status Report for Areas Impacted by Hurricane Maria October 16, 2017

The following is a report on the status of communications services in geographic areas impacted by Hurricane Maria as of October 16, 2017 at 11:00 AM EDT. This report incorporates network outage data submitted by communications providers to the Federal Communications Commission's Disaster Information Reporting System (DIRS). DIRS is currently activated for all counties in Puerto Rico and the U.S. Virgin Islands. Note that the operational status of communications services during a disaster may evolve rapidly, and this report represents a snapshot in time. It should also be noted that some communications providers have not yet reported in DIRS, so outage information almost certainly is not complete.

The following counties are in the geographic area that was covered by the DIRS activation as of this morning (the "disaster area").

Puerto Rico: Adjuntas, Aguada, Aguadilla, Aguas Buenas, Aibonito, Anasco, Arecibo, Arroyo, Barceloneta, Barranquitas, Bayamon, Cabo Rojo, Caguas, Camuy, Canovanas, Carolina, Catano, Cayey, Ceiba, Ciales, Cidra, Coamo, Comerio, Corozal, Culebra, Dorado, Fajardo, Florida, Guanica, Guayama, Guayanilla, Guaynabo, Gurabo, Hatillo, Hormigueros, Humacao, Isabela, Jayuya, Juana Diaz, Juncos, Lajas, Lares, Las Marias, Las Piedras, Loiza, Luquillo, Manati, Maricao, Maunabo, Mayaguez, Moca, Morovis, Naguabo, Naranjito, Orocovis, Patillas, Penuelas, Ponce, Quebradillas, Rincon, Rio Grande, Sabana Grande, Salinas, San German, San Juan, San Lorenzo, San Sebastian, Santa Isabel, Toa Alta, Toa Baja, Trujillo Alto, Utuado, Vega Alta, Vega Baja, Vieques, Villalba, Yabucoa and Yauco

U.S. Virgin Islands: St. Croix, St. John, St. Thomas

911 Services

The Public Safety and Homeland Security Bureau (PSHSB) learns the status of each Public Safety Answering Point (PSAP) through the filings of 911 Service Providers in DIRS, reporting to the FCC's Public Safety Support Center (PSSC), coordination with state 911 Administrators, and, if necessary, from individual PSAPs.

Both PSAPs in Puerto Rico are reported as operational. In the U.S. Virgin Islands, both the St. Croix and the St. Thomas 9-1-1 Call Centers are reported as operational; Phase I and Phase II location information for wireless callers and Automatic Number and Location Information (ANI/ALI) for VoIP callers has been intermittently available.

Wireless Services

The following section describes the status of wireless communications services and restoration in the disaster area, including the percentage of cell sites out of service for each county.

The following map of the disaster area illustrates which counties in Puerto Rico are most affected:

Percent Cell Sites Out-of-Service By County

10/16/2017 11:07:30 AM

■ 1 - 20
 ■ 21 - 40
 ■ 41 - 60
 ■ 61 - 80
 ■ 81 - 100

The information shown was provided by the signatories to the Wireless Resiliency Cooperative Framework and several additional companies that agreed to allow us to include their data in the aggregated data:

Puerto Rico: 74.1% (slightly down from 74.5% yesterday) of the cell sites are out of service. 11 (same as yesterday) out of the 78 counties in Puerto Rico have 100% of their cell sites down.

The four major wireless companies have opened up roaming on the islands so that they, collectively, can serve the maximum population of the islands with the current coverage available. They are coordinating and prioritizing the recovery of cell sites and placement of temporary assets with the other carriers to maximize the coverage for all subscribers. Satellite Cells on Light Trucks (COLTs) have been deployed in Aguadilla, Arecibo, Cayey, Caomo Sur, Fajardo, Guayama, Manati, Mayaguez Mesa, San German, Vega Baja, and Yauco and Terrestrial Cells on Wheels (COWs)/COLTs in Humacao, Quebradillas, Rio Grande, and Utuado. Approximately 61% (slightly up from 60% last week) of the population was reported to be covered by the wireless carriers in Puerto Rico.

U.S. Virgin Islands: Overall, 55.4% (same as yesterday) of cell sites are out of service. 100% of cell sites in St. John are out of service. Approximately 88% (up from 79% last week) of the population was reported to be covered by the wireless carriers in the U.S. Virgin Islands.

The tables below provide the percentage of cell sites out of service by county per state or territory. Counties highlighted in red have 100% of their cell sites out of service.

Puerto Rico:

State	Affected Counties	Cell Sites Served	Cell Sites Out	Percent Out	COWs or COLTs Deployed
PR	ADJUNTAS	10	7	70.0%

VI	ST. THOMAS	66	30	45.5%
TOTAL		121	67	55.4%

Cable Systems and Wireline (Combined)

Since there are widespread power outages in Puerto Rico and the U.S. Virgin Islands, the FCC has received reports that large percentages of consumers are without either cable services or wireline service (one Puerto Rico cable company has reported that approximately 1% of its consumers have had service restored). In Puerto Rico, there are at least 6 (same as yesterday) switches that are out of service due to either SS7 or toll isolation.

Broadcast

The following provides broadcast status based on data collected from DIRS input, FEMA reports, and FCC scans/outreach.

Television stations status:

Puerto Rico:

2 TV stations are confirmed operational (WKAQ, WIPR)

1 TV station is confirmed out of service (WIPM)

U.S. Virgin Islands: None reported

AM Radio stations status:

Puerto Rico:

46 AM radio stations are confirmed operational (WA2XPA, WABA, WALO, WBMJ, WCMN, WCPR, WDEP, WDNO, WENA, WEXS, WGD, WI2XAC, WI2XSO, WI3XSO, WIAC, WISO, WKAQ, WKJB, WKUM, WLEO, WMDD, WMIA, WMNT, WMSW, WNEL, WNIK, WOIZ, WPAB, WPRA, WPRP, WSKN, WSOL, WTIL, WUKQ, WUPR, WXEW, WYAC, WYEL, WAPA, WKFE, WBQN, WIDA, WOLA, WIPR, WWNA, WXRF)

17 AM radio stations are confirmed out of service (WCGB, WFAB, WGIT, WHOY, WIBS, WISA, WIVV, WKVM, WNVI, WOQI, WORA, WOSO, WQBS, WQII, WRSJ, WUNO, WVOZ)

U.S. Virgin Islands:

2 AM radio stations are confirmed operational (WDHP, WSTX)

FM Radio stations status:

Puerto Rico:

26 FM radio stations are confirmed operational (WAEL-FM, WEGM, WFID, WIDI, WKAQ-FM, WLUZ, WMAA-LP, WMEG, WNRT, WNVM, WODA, WORO, WOYE, WPRM-FM, WPUC-FM, WQML, WRRH, WTOK-FM, WVDJ-LP, WYQE, WZNT, WZOL, WNVE, WXYX, WRIO, WUKQ-FM)

16 FM radio stations are confirmed out of service (WELX, WMIO, WCAD, WCRP, WERR, WFDT, WIOA, WIOC, WTPM, WXHD, WXLX, WZAR, WZCA, WZET, WCMN-FM, WIPR-FM)

U.S. Virgin Islands: None reported
